Disclaimer:

For monitoring and administering the claim management process of **Surgery for Priapism - Follow Up** for NHA shall be following these guidelines. This document has been prepared for guidance of PROCESSING TEAM and TRANSACTION MANAGEMENT SYSTEM of AB PM-JAY for the claims of procedures mentioned above. The hospitals can also refer to this document so that they have the insight on how the claims will be processed. However, this document doesn't provide any guidance on clinical and therapeutic management of patient. In that respect the hospitals and physicians may refer to any other relevant material as per the extant professional norms.

PART I: GUIDELINES FOR CLINICIANS AND HEALTHCARE PROVIDERS

1.1 Objective:

The purpose of this section is to act as a guidance & a clinical decision support tool for the clinicians in deciding the line of treatment, plan clinical management of patient and decide referral of cases to the appropriate level of care (as required) for treatment of patients under PMJAY and selection of corresponding Health Benefit Package.

It will also serve as a tool for hospitals to determine and submit the mandatory documents required for claiming reimbursement of health benefit package under PMJAY.

1.2 Clinical key pointers:

Proceed with **Surgery for Priapism** only if diagnosis made is backed by clinical manifestation

Ischemic priapism:

- Progressive penile pain
- Erection lasting more than four hours or unrelated to sexual interest or stimulation
- Rigid penile shaft, but the tip of penis (glans) is soft

Nonischemic priapism:

- Erection lasting more than four hours or unrelated to sexual interest or stimulation
- Erect but not fully rigid penile shaft

1.3 Mandatory documents- For healthcare providers

Following documents should be uploaded by the concerned hospital staff at the time of pre-authorization and claims submission:

Mandatory document	Surgery for Priapism-Follow Up
i. At the time of Pre-authorization	
a. Clinical notes of current visit detailing examination findings, previous surgery/procedure, investigations, advise for daycare procedure	Yes
b. Discharge Summary of last admission for surgery for priapism procedure	Yes
ii. At the time of claim submission	
a. Clinical notes/discharge summary of the current visit with the details of treatment given	Yes

PART II: GUIDELINES FOR PROCESSING TEAM

PART III: GUIDELINES FOR TRANSACTION MANAGEMENT SYSTEM (TMS)

3.1 Objective: To enable setting up of cross check mechanisms/rule engines within the IT platform (TMS) to ensure compliance with STGs and to prevent fraud / abuse of the Health Benefit Package.

3.2 Below mentioned are the scenarios where a provision would be built in TMS for pop-ups:

Surgery for Priapism- Follow Up

1. Was the clinical findings and earlier discharge summary indicative of follow-up procedure? Yes

Till the time the functionality is being developed, the processing doctors shall check the above manually.
